**This is the translated letter of your sponsored child**

Dear Wojnarova Sona - Zs Dobris,

Warm greetings to you my dear. I am fine here and doing well in my studies. I hope you too are fine there and enjoying good health. Along with my family I celebrated Deepavali festival very recently. So Christmas is coming soon. I hope you too might be busy in the celebration.

I am studying the ITI Course having taken up the study of fitter. The 2<sup>nd</sup> semester examination is over and I have answered well. I found the calculation exam tough. I am waiting for the result right now. In the 3<sup>rd</sup> semester we are taught Lathe Working subject in which we are taught the topics of round cylindrical job, step cutting and facing. I am also learning grinding machine and cutting too.

The centre organized a workshop for the ITI course students. Herrick sir, the resource person, spoke on a lot of things. He advised us to prudently take up suitable jobs that synchronize with the ITI courses taken up.

There are still 10 months to go for the completion of the course. After finishing the course I will take up a suitable job in the same field.

Winter is all about work and no visits outdoors. Since there is an exam scheduled for these days.

This year on the festival of Deepavali my father bought new clothes. I was happy on this day. My brothers Yogesh and Prashanth are in the II Year of PU course and the 10<sup>th</sup> Grade respectively. My parents encourage all of us others in education. This helps us and increases our zeal and interest in study.

Every year, the centre has given me the Deepavali gift. I am ever grateful to you for this help. Thanking you and the centre, I end this letter.

Your loving child

Deepak
